**Please see next page**

On rare occasions a school or educational establishment may face a major/critical incident. A major/critical incident is defined as a trauma, or several incidents requiring urgent action and/or closure. Examples of a major/critical incident include:

- The death of a pupil(s) or member(s) of staff through sudden accident, murder, illness, or suicide.
- A serious accident involving pupils and school personnel on or off school premises.
- A violent attack or violent intrusion onto school premises, e.g. involving an armed intruder or a bomb alert.
- Fire, flood, building collapse or major vandalism in school.
- A hostage situation, or threats made to a school causing a lockdown.
- A disaster in the community, e.g. transport accident, terrorism.

**In the event of a major/critical incident the following action should be taken:**

- Contact the emergency services as required;
- Create a '**Critical Incident Management Team**', a school base team like an establishment Senior Management Team who can provide a suitable or practical response to the incident in question.
- Contact the Local Authority to activate further support and guidance ([useful contacts](#));

The following appendices outline the key actions and contacts to follow in the event of a critical/major emergency. This document should be kept so it is accessible in an emergency i.e. Business Continuity Grab bag.
